SUPPLEMENTARY INFORMATION:

A. OMB control number, Title, and any Associated Form(s) :

9000-0069, Indirect Cost Rates, Predetermined Indirect Cost
Rates, and Bankruptcy Notifications

B. Needs and Uses

The Federal Acquisition Regulatory Council is in the process of combining OMB Control Numbers for the Federal Acquisition Regulation (FAR) by FAR part to the maximum practicable extent. This consolidation is expected to improve industry's ability to easily and efficiently identify all burdens associated with a given FAR part. The review of the information collections by FAR part allows improved oversight to ensure there is no redundant or unaccounted for burden placed on industry. Lastly, combining information collections in a given FAR part is also expected to reduce the administrative burden associated with processing multiple information collections.

This justification supports revision and extension of the expiration date of OMB Control No. 9000-0069 and

combines it with the previously approved information collection OMB Control No. 9000-0108, with the new title "Indirect Cost Rates, Predetermined Indirect Cost Rates, and Bankruptcy Notifications". Upon approval of this consolidated information collection, OMB Control No. 9000-0108 will be discontinued. The burden requirements previously approved under the discontinued Number will be covered under OMB Control No. 9000-0069.

This clearance covers the information that contractors must submit to comply with the following FAR requirements:

1. 52.216-7, Allowable Cost and Payment, paragraph (d), requires that final annual indirect cost rates and the appropriate bases shall be established in accordance with FAR subpart 42.7. These rates are used, in part, in cost reimbursement contracts, time and materials contracts (other than for commercial items and not for labor-hour contracts), and for certain types of fixed price contracts construction contracts. The clause requires the contractor to submit an adequate final indirect cost rate proposal to the contracting officer and the auditor within the 6-month period following the expiration of each of its fiscal years. The proposed rates shall be based on the contractor's actual cost experience for that period. This

clause provides a list of the data required to be submitted. The data is customary business financial information that the contractor can access from its automated business systems.

2. 52.216-15, Predetermined Indirect Cost Rates, used in solicitations and contracts for a cost-reimbursement research and development contract with an educational institution and addresses how the allowable indirect costs under the contract shall be obtained by applying predetermined indirect costs to bases agreed by the parties. This clause repeats the requirement in FAR 52.216-7, paragraph (d), for the contractor to submit an adequate final indirect cost rate proposal, however it does not impose any additional reporting requirements.

3. 52.242-4, Certification of Final Indirect Costs, requires the contractor's proposal of final indirect cost rates to be certified to establish or modify the rates used to reimburse the contractor for the costs of performing under the contract. The supporting cost data are the cost accounting information normally prepared by organizations under sound management and accounting practices. This clause is incorporated into all solicitations and contracts, except for the Department of Energy Management

and Operating contracts, that provide for establishment of final indirect cost rates.

4. 52.242-13, Bankruptcy. This clause requires contractors to notify the contracting officer within five days after initiating the proceedings relating to bankruptcy filing.
